A workshop guide to the strip-down, rebuild,  
maintenance and repair of two-stroke  
motorcycle engines. Author Dave Boothroyd

crankcase, flywheel, bearings, inlet manifold,  
clutch, gearbox and primary drive, and,

finally, racing motorcycles and tuning engines for best performance; diagnosing problems and workshop safety. This practical reference guide is for the two-stroke motorcycle owner or restorer and is illustrated throughout with over 450 colour photographs. The Ferrari 250GT Berlinettas are undeniably beautiful and, arguably, the greatest Ferrari racing cars ever built. The 250 GT Competizione Berlinetta - now popularly known as the "Tour de France Berlinetta," in honour of the model's domination of the great French event with four outright victories - was the true forerunner of the series of cars which established Ferrari as a major force in sports car racing. Here is the story of the development, building and racing of the "Tour de France" Ferraris. Importantly, the book also contains individual histories of the Ferrari "TdF" Berlinettas.
