Judicial Reasoning under the UK Human Rights Act is a collection of essays written by leading experts in the field, which examines judicial decision-making under the UK's de facto Bill of Rights. The book focuses both on changes in areas of substantive law and the techniques of judicial reasoning adopted to implement the Act. The contributors therefore consider first general Convention and Human Rights Act concepts – statutory interpretation, horizontal effect, judicial review, deference, the reception of Strasbourg case-law – since they arise across all areas of substantive law. They then proceed to examine not only the use of such concepts in particular fields of law (privacy, family law, clashing rights, discrimination and criminal procedure), but also the modes of reasoning by which judges seek to bridge the divide between familiar common law and statutory doctrines and those in the Convention. Liesel Meminger is a foster girl living outside of Munich, who scratches out a meager existence for herself by stealing when she encounters something she can't resist--books. With the help of her accordion-playing foster father, she learns to read and shares her stolen books with her neighbors during bombing raids as well as with the Jewish man hidden in her basement. In superbly crafted writing that burns with intensity, award-winning author Markus Zusak, author of *I Am the Messenger*, has given us one of the most enduring stories of our time. "The kind of book that can be life-changing." —The New York Times "Deserves a place on the same shelf with *The Diary of a Young Girl* by Anne Frank." —USA Today DON'T MISS BRIDGE OF CLAY, MARKUS ZUSAK'S FIRST NOVEL SINCE THE BOOK THIEF. This book looks at the representation of female characters in French comics from their first appearance in 1905. Organised into three sections, the book looks at the representation of women as main characters created by men, as secondary characters created by men, and as characters created by women. It focuses on female characters, both primary and secondary, in the francophone comic or bande dessinée, as well as the work of female bande dessinée creators more generally. Until now these characters and creators have received relatively little scholarly attention; this new book is set to change this status quo. Using feminist scholarship, especially from well-known film and literary theorists, the book asks what it means to draw women from within a phallogentric, male-dominated paradigm, as well as how the particular medium of bande dessinée, its form as well as its history, has shaped dominant representations of women. This is the first book to study the representation of women in the French-language drawn strip. There are no other works with this specific focus, either on women in Franco-Belgian comics, or on the drawn representation of women by men. This is a very useful addition to both general discussions of French-language comics, and to discussions of women's comics, which are focused on comics by women only. As it is written in English, and due to the popularity of comic art in Britain and the United States, this book will primarily appeal to an Anglo-American market. However, the cultural and gender studies approach this text employs (theoretical frameworks still not widely seen in non-Anglophone studies of the bande dessinée) will ensure that the text is also of interest to a Franco-Belgian audience. With a focus on an art-form which also inspires a lot of public (non-academic) enthusiasm, it will also appeal to fans of the bande dessinée (or wider comic art medium) who are interested in the representation of women in comic art, and to comics scholars on a broad scale.
