The Banshee Screamed Mar 14 2022

The Health Gap Mar 22 2020 'Punchily written ... He leaves the reader with a sense of the gross injustice of a world where health outcomes are so unevenly distributed' Times Literary Supplement 'Splendid and necessary' Henry Marsh, author of Do No Harm, New Statesman There are dramatic differences in health between countries and within countries. But this is not a simple matter of rich and poor. A poor man in Glasgow is rich compared to the average Indian, but the Glaswegian's life expectancy is 8 years shorter. The Indian is dying of infectious disease linked to his poverty; the Glaswegian of violent death, suicide, heart disease linked to a rich country's version of disadvantage. In all countries, people at relative social disadvantage suffer health disadvantage, dramatically so. Within countries, the higher the social status of individuals the better is their health. These health inequalities defy usual explanations. Conventional approaches to improving health have emphasised access to technical solutions – improved medical care, sanitation, and control of disease vectors; or behaviours – smoking, drinking – obesity, linked to diabetes, heart disease and cancer. These approaches only go so far. Creating the conditions for people to lead flourishing lives, and thus empowering individuals and communities, is key to reduction of health inequalities. In addition to the scale of material success, your position in the social

hierarchy also directly affects your health, the higher you are on the social scale, the longer you will live and the better your health will be. As people change rank, so their health risk changes. What makes these health inequalities unjust is that evidence from round the world shows we know what to do to make them smaller. This new evidence is compelling. It has the potential to change radically the way we think about health, and indeed society.

*New Scientist* Nov 22 2022

**The Island of Heavenly Daze** Dec 31 2020 To a casual visitor, the island of Heavenly Daze is just like a dozen others off the coast of Maine. It is decorated with graceful Victorian mansions, carpeted with gray cobblestones and bright wild flowers, and populated by sturdy, hard-working folks-most of whom are unaware that the island of Heavenly Daze is not just like the other islands of coastal Maine. The small town that crowns its peak consists of seven buildings, each inhabited, according to divine decree, by an angel who has been commanded to guard and help anyone who crosses the threshold. Unexpected hijinks and heart-warming results occur when mortals and immortals cross paths-and unaware visitors to the picturesque establishments of Heavenly Daze discover that they have been entertained by angels.

**English and Literacies** Feb 25 2023 English and Literacies introduces pre-service teachers to the many facets of literacies and English education for primary students.

*Mindfulness (HBR Emotional Intelligence Series)* Oct 09 2021 The benefits of mindfulness

include better performance, heightened creativity, deeper self-awareness, and increased charisma—not to mention greater peace of mind. This book gives you practical steps for building a sense of presence into your daily work routine. It also explains the science behind mindfulness and why it works and gives clear-eyed warnings about the pitfalls of the fad. This volume includes the work of: Daniel Goleman Ellen Langer Susan David Christina Congleton This collection of articles includes “Mindfulness in the Age of Complexity,” an interview with Ellen Langer by Alison Beard; “Mindfulness Can Literally Change Your Brain,” by Christina Congleton, Britta K. Hölzel, and Sara W. Lazar; “How to Practice Mindfulness Throughout Your Work Day,” by Rasmus Hougaard and Jacqueline Carter; “Resilience for the Rest of Us,” by Daniel Goleman; “Emotional Agility: How Effective Leaders Manage Their Thoughts and Feelings,” by Susan David and Christina Congleton; “Don’t Let Power Corrupt You,” by Dacher Keltner; “Mindfulness for People Who Are Too Busy to Meditate,” by Maria Gonzalez; “Is Something Lost When We Use Mindfulness as a Productivity Tool?” by Charlotte Lieberman; and “There Are Risks to Mindfulness at Work,” by David Brendel. How to be human at work. The HBR Emotional Intelligence Series features smart, essential reading on the human side of professional life from the pages of Harvard Business Review. Each book in the series offers proven research showing how our emotions impact our work lives, practical advice for managing difficult people and situations, and inspiring essays on what it means to tend to our emotional well-being at

work. Uplifting and practical, these books describe the social skills that are critical for ambitious professionals to master.

**New Scientist and Science Journal** Sep 20 2022

**Light and Optics** Aug 07 2021 Discusses aspects of light and optics and their relevance to daily life.

*Manufacturing Facilities Design and Material Handling* Jun 24 2020 This project-oriented facilities design and material handling reference explores the techniques and procedures for developing an efficient facility layout, and introduces some of the state-of-the-art tools involved, such as computer simulation. A "how-to," systematic, and methodical approach leads readers through the collection, analysis and development of information to produce a quality functional plant layout. Lean manufacturing; work cells and group technology; time standards; the concepts behind calculating machine and personnel requirements, balancing assembly lines, and leveling workloads in manufacturing cells; automatic identification and data collection; and ergonomics. For facilities planners, plant layout, and industrial engineer professionals who are involved in facilities planning and design.

Sword Saint Volume 2: Two Ways Reflection Apr 27 2023 Mikoto Kiyoharu's term at the prestigious Miatori Boarding School is off to a rocky start. For a school girl, bombing tests can feel like the end of the world, but there are problems in Miatori that may mean the literal apocalypse. An eccentric sophomore Haruna Harukami claims her twin sister has

followed in the footsteps of Alice and become lost in a world beyond the looking glass. She tasks Mikoto to find the missing person, but...where to even begin looking? Life doesn't look too rosy for the local Movie Club either, which is about to be disbanded for losing its members. Will their new blockbuster project attract more members, or will the ones left keep denying reality...on the way to another? A collection of short stories set in the unforgettable summer of 1999.

**Happier at Home** May 24 2020 In the spirit of the #1 New York Times bestseller *The Happiness Project*, Gretchen Rubin embarks on a new project to make home a happier place. In *The Happiness Project*, she worked out general theories of happiness. Here she goes deeper on factors that matter for home, such as possessions, marriage, time and parenthood. How can she control the cubicle in her pocket? How might she spotlight her family's treasured possessions? And it really was time to replace that dud toaster. And what does she want from her home? A place that calms her, and energises her. A place that, by making her feel safe, will free her to take risks. Also, while Rubin wants to be happier at home, she wants to appreciate how much happiness is there already. So, starting in September (the new January), Rubin dedicates a school year - September through May - to making her home a place of greater simplicity, comfort and love. Each month, Rubin tackles a different theme as she experiments with concrete, manageable resolutions - and this time, she coaxes her family to try some resolutions, as well. With her signature blend of

memoir, science, philosophy and experimentation, Rubin's passion for her subject jumps off the page, and reading just a few chapters of this book will inspire readers to find more happiness in their own lives.

*100 Brain-Friendly Lessons for Unforgettable Teaching and Learning (9-12)* Mar 26 2023

Use research- and brain-based teaching to engage students and maximize learning Lessons should be memorable and engaging. When they are, student achievement increases, behavior problems decrease, and teaching and learning are fun! In *100 Brain-Friendly Lessons for Unforgettable Teaching and Learning 9-12*, best-selling author and renowned educator and consultant Marcia Tate takes her bestselling *Worksheets Don't Grow Dendrites* one step further by providing teachers with ready-to-use lesson plans that take advantage of the way that students really learn. Readers will find 100 cross-curricular sample lessons from each of the eight major content areas: Earth Science, Life Science, Physical Science, English, Finance, Algebra, Geometry, Social Studies Plans designed around the most frequently taught objectives found in national and international curricula. Lessons educators can immediately replicate in their own classrooms or use to develop their own. 20 brain-compatible, research-based instructional strategies that work for all learners. Five questions that high school teachers should ask and answer when planning brain-compatible lessons and an in-depth explanation of each of the questions. Guidance on building relationships with students that enable them to learn at optimal levels. It is a

wonderful time to be a high school teacher! This hands-on resource will show you how to use what we know about educational neuroscience to transform your classroom into a place where success is accessible for all.

**Ink Knows No Borders** Jul 18 2022 A poetry collection for young adults brings together some of the most compelling and vibrant voices today reflecting the experiences of teen immigrants and refugees. With authenticity, integrity, and insight, this collection of poems addresses the many issues confronting first- and second- generation young adult immigrants and refugees, such as cultural and language differences, homesickness, social exclusion, human rights, racism, stereotyping, and questions of identity. Poems by Elizabeth Acevedo, Erika L. Sánchez, Samira Ahmed, Chen Chen, Ocean Vuong, Fatimah Asghar, Carlos Andrés Gómez, Bao Phi, Kaveh Akbar, Hala Alyan, and Ada Limón, among others, encourage readers to honor their roots as well as explore new paths, offering empathy and hope for those who are struggling to overcome discrimination. Many of the struggles immigrant and refugee teens face head-on are also experienced by young people everywhere as they contend with isolation, self-doubt, confusion, and emotional dislocation. **Ink Knows No Borders** is the first book of its kind and features 65 poems and a foreword by poet Javier Zamora, who crossed the border, unaccompanied, at the age of nine, and an afterword by Emtithal Mahmoud, World Poetry Slam Champion and Honorary Goodwill Ambassador for UNHCR, the UN Refugee Agency. Brief biographies of the poets are

included, as well. It's a hopeful, beautiful, and meaningful book for any reader.

**Computational Complexity** Nov 29 2020 New and classical results in computational complexity, including interactive proofs, PCP, derandomization, and quantum computation. Ideal for graduate students.

The 40 Day Soul Fast Oct 29 2020 Get ready to experience the best 40 days of your life! The 40 Day Soul Fast: Your Journey To Authentic Living is an eight-week study of the life of the soul, the practice of fasting, and the process of living more authentically. It is a transformational expedition that will lead you on an inward journey to greater health, happiness, and success as you learn to live from the inside out—as we are told by Jesus in the book of Matthew: “Ignite the kingdom life within you, a fire within you . . . changing you from the inside out . . . make a clean sweep of your lives” (Matthew 3:11). When all is well with the souls of humanity, all will be well in the world. When you have peace in your soul, you will bring that peace to bear on the world around you—you will become the change you are hoping to see. Churches, organizations, small groups, and families are encouraged to travel together on this 40-day journey to greater mental, emotional, and spiritual health. If everyone who picks up this book takes it upon him or herself to encourage others to participate, we would create an unstoppable movement! You may think that one healed soul cannot heal the world, but it can. Join the Soul Fast Movement by going to [www.soulfast.com](http://www.soulfast.com). There you will find soul-empowering resources and tools to not only

transform your life, but the world! The 40 Day Soul Fast promises to bring the best out of you so that you can impact your world for good. Have the courage to follow your heart! Step out and engage with your authentic self—it will be the best 40 days of your life!

*Merchant Vessels of the United States* Apr 15 2022 From 1894/95-1935/36, pt.6 of each volume is issued separately, with titles, 1894/95-1902/03: Code list of merchant vessels of the United States; 1903/04-1935/36: Seagoing vessels of the United States.

**Ritchie Mined - Volume I** Jan 12 2022 Short summaries of 3,026 essays by Bill H. Ritchie, artist, teacher and visionary drawn from his journals written between 1969 - 2009. He structured the headings of each article according an imaginary place he calls "Emeralda," imagining ten islands on a lake where he, as a recipient of a mythical prize, is encouraged to write freely about anything that seems important to an artist, teacher and philosopher. Mindful of the use of new technologies, each essay summary has key index features which would allow a reader having a computer and optional CD-ROM to retrieve the full text of any article. Or, using freely chosen keywords of their own, find the articles which have those words in them.

**Lighthouse Beach** Nov 10 2021 Two women meet and their lives are changed forever. Sara and Georgia are from completely different backgrounds but share some similar family circumstances. Love is a powerful force that compels them to be together. They find they share a deep, permanent love that proves a true partnership is stronger than anything else.

(Lesbian, romance, relationships)

## **New Directions in Technological Pedagogical Content Knowledge Research Dec 23**

2022 In the past decades wide-ranging research on effective integration of technology in instruction have been conducted by various educators and researchers with the hope that the affordances of technology might be leveraged to improve the teaching and learning process. However, in order to put the technology in optimum use, knowledge about how and in what way technology can enhance the instruction is also essential. A number of theories and models have been proposed in harnessing the technology in everyday lessons. Among these attempts Technological and Pedagogical Content Knowledge (TPACK) framework introduced by Mishra and Koehler has emerged as a representation of the complex relationships between technology, pedagogy and content knowledge. The TPACK framework extends the concept of Shulman's pedagogical content knowledge (PCK) which defines the need for knowledge about the content and pedagogical skills in teaching activities. Since then the framework has been embraced by the educational technology practitioners, instructional designers, and educators. TPACK research received increasing attention from education and training community covering diverse range of subjects and academic disciplines and significant progress has been made in recent years. This book attempts to bring the practitioners and researchers to present current directions, trends and approaches, convey experience and findings, and share reflection and vision to improve

science teaching and learning with the use of TPACK framework. A wide array of topics will be covered in this book including applications in teacher training, designing courses, professional development and impact on learning, intervention strategies and other complex educational issues. Information contained in this book will provide knowledge growth and insights into effective educational strategies in integration of technology with the use of TPACK as a theoretical and developmental tool. The book will be of special interest to international readers including educators, teacher trainers, school administrators, curriculum designers, policy makers, and researchers and complement the existing literature and published works.

Saber-tooth Curriculum Jul 26 2020 "A classic of educational criticism proves its relevance in light of today's educational quandaries First published by McGraw-Hill in 1939, The Saber-Tooth Curriculum was a groundbreaking satire of the educational establishment, and its unwillingness to adapt to changing times. Throughout the decades, this witty work has not only become an educational classic, but has also remained as relevant and applicable to the key questions in education today as it was when first published. With tongue firmly in cheek, Peddiwell takes on the conflicting philosophies of education, from its imagined origins at the dawn of time to its culmination in a ritualistic, deeply entrenched social institution with rigidly prescribed norms and procedures. Developed within a fanciful framework of fictional lectures, given by fictional author Professor J. Abner Peddiwell,

doyen in the History of Education at Petaluma State College, this humorous fable illustrates the progress of education and gives valuable insights into how it could continue to develop in the decades to come."--desc. of new 2004 ed., via amazon.ca.

*Policy Implications of Greenhouse Warming* May 04 2021 Global warming continues to gain importance on the international agenda and calls for action are heightening. Yet, there is still controversy over what must be done and what is needed to proceed. *Policy Implications of Greenhouse Warming* describes the information necessary to make decisions about global warming resulting from atmospheric releases of radiatively active trace gases. The conclusions and recommendations include some unexpected results. The distinguished authoring committee provides specific advice for U.S. policy and addresses the need for an international response to potential greenhouse warming. It offers a realistic view of gaps in the scientific understanding of greenhouse warming and how much effort and expense might be required to produce definitive answers. The book presents methods for assessing options to reduce emissions of greenhouse gases into the atmosphere, offset emissions, and assist humans and unmanaged systems of plants and animals to adjust to the consequences of global warming.

**Teaching Technology in Libraries** Aug 19 2022 Libraries are charged with fostering new skills and capabilities, a challenging task in an era of rapid technological change. Developing new ways of teaching and learning—within budget and time constraints—is the

key to keeping up-to-date. Written by librarians, this collection of new essays describes an array of technology outreach and instruction programs—from the theoretical to the practical—for public, academic and school libraries, based on case studies and discussions of methodology. Content includes out of the box lessons, outreach successes and technology instruction programs applicable to patrons and staff at public, academic and school libraries.

**True Story** Jan 24 2023 In this engaging narrative, Choung weaves a tale of a search for a Christianity worth believing in. Disillusioned believer Caleb and hostile skeptic Anna wrestle with the plausibility of the Christian story in a world of pain and suffering. The ensuing conversion is not what either expects.

**The Gizmo** Dec 11 2021 Stephen's bra is starting to slip. His pantyhose are sagging. His knickers keep falling down. Oh, the shame of it. He stole a gizmo-and now it's paying him back. Another crazy yarn from Australia's master of madness. The Paul Jennings phenomenon began with the publication of *Unrealin* 1985. Since then, his stories have been devoured all around the world.

*Spellbound* Jan 20 2020 In 1861, Clarissa Montgomery was beside herself with grief as her husband, Charles, prepared to enlist in the Confederate Army. Raised by her Cajun grandmother in the bayous of Louisiana, Clarissa had learned the art of black magic, spells and incantations, though never really did believe in its power. But when she could not talk Charles out of going off to war, she resorted to the next best thing—she cast a spell to keep

them all safe. Little could she have known the ramifications the frivolous little rhyme she just made up on the spur of the moment would have on their lives. A century and a half later, after the sudden death of her husband, the temptation to explore the historic Shenandoah Valley of Virginia was too strong for Claire LePaige to resist. Yet the closer to Shenandoah she found herself, the more eerily familiar the area seemed. And when she stumbled upon an old, ramshackle house by the river, Claire knew she had to have it even though it was rumored to be haunted by the ghost of a Civil War soldier. The children saw him . . . tried to convince her he was real. However, Claire no more believed in ghosts than she did in reincarnation. It took a series of unexplainable coincidences for Claire's resolve to crumble.

**Merchant Vessels of the United States...** May 16 2022

**Pragmatism, Postmodernism and the Future of Philosophy** Feb 13 2022 First published in 2003. Routledge is an imprint of Taylor & Francis, an informa company.

**Artemis** Aug 27 2020 The bestselling author of *The Martian* returns with an irresistible new near-future thriller—a heist story set on the moon. Jasmine Bashara never signed up to be a hero. She just wanted to get rich. Not crazy, eccentric-billionaire rich, like many of the visitors to her hometown of Artemis, humanity's first and only lunar colony. Just rich enough to move out of her coffin-sized apartment and eat something better than flavored algae. Rich enough to pay off a debt she's owed for a long time. So when a chance at a huge

score finally comes her way, Jazz can't say no. Sure, it requires her to graduate from small-time smuggler to full-on criminal mastermind. And it calls for a particular combination of cunning, technical skills, and large explosions—not to mention sheer brazen swagger. But Jazz has never run into a challenge her intellect can't handle, and she figures she's got the 'swagger' part down. The trouble is, engineering the perfect crime is just the start of Jazz's problems. Because her little heist is about to land her in the middle of a conspiracy for control of Artemis itself. Trapped between competing forces, pursued by a killer and the law alike, even Jazz has to admit she's in way over her head. She'll have to hatch a truly spectacular scheme to have a chance at staying alive and saving her city. Jazz is no hero, but she is a very good criminal. That'll have to do. Propelled by its heroine's wisecracking voice, set in a city that's at once stunningly imagined and intimately familiar, and brimming over with clever problem-solving and heist-y fun, Artemis is another irresistible brew of science, suspense, and humor from #1 bestselling author Andy Weir.

The King in the Window Feb 01 2021 Eleven-year-old Oliver, an American boy residing in Paris, discovers, much to his astonishment, that phantoms live within the windowpanes and have selected Oliver to lead a war against the "soul-stealers" that inhabit mirrors.

*The Red-Hot Chili Cook-Off* Feb 19 2020 More Than the Chili's Heating Up Cadillac, Texas Carlene Lovelle, co-owner of Bless My Bloomers lingerie shop, found a pair of fancy red-silk panties in her husband's briefcase, and all hell is breaking loose. She custom-made

those fancy bloomers herself—and she remembers the bimbo who bought them. If her husband had a lick of sense, he'd known there are no secrets in a town like Cadillac. Carlene's cohorts—and their mamas—plan to exact revenge on Lenny Joe where it'll hurt the most: break his ten-year winning streak at the prestigious Red-Hot Chili Cook-Off. Never before has a woman dared to compete. But the ladies of Bless My Bloomers are cooking up a storm...and it seems the whole town is taking sides in the showdown. Welcome to Cadillac, Texas, where the chili is hot, the gossip is hotter, and friends stick by each other, no matter what the challenge. Praise for The Blue-Ribbon Jalapeño Society Jubilee: "Hilarious...fast-paced...A high-spirited, romantic page-turner."—Kirkus "Humor and down-home charm make this a first-place prize winner."—RT Book Reviews, 4 Stars "In this laugh-out-loud read, bestselling Brown takes her expertise in writing top-notch cowboy romance novels to stir things up...among four female friends."—Booklist "Heartwarming and fun...Brown's story reminded me of Fried Green Tomatoes at the Whistle Stop Cafe."—Long and Short Reviews

Study Guide 1 Jul 06 2021

**Excelling in the Clinic** Sep 08 2021 Working in the outpatient clinic is a key training experience for medical students. When they arrive at the clinic, students may discover that their time on the inpatient wards does not necessarily prepare them to perform well in the outpatient setting. Everything is different in the clinic, from the nature and context of the

patient encounter to the student's role in note-writing, oral case presentation, and case discussion with the attending physician. The purpose of this book is to guide students as they transition to the world of 15-minute appointments, telemedicine, cyberchondriasis, motivational interviewing, shared medical appointments, and real-time informatics. The aim is to give students a clear understanding of their role in a variety of clinic settings, to evaluate and present their patients well, maximize learning, and provide excellent care for their patients. *Excelling in the Clinic* explains the process of becoming an effective, efficient, and scholarly worker in the primary care clinic.

**God and Gadgets** Apr 03 2021 Technologies are deeply embedded in the modern West. What would our lives be like without asphalt, glass, gasoline, electricity, window screens, or indoor plumbing? We naturally praise technology when it is useful and bemoan it when it is not. But there is much more to technology than the usefulness of this or that artifact. Unfortunately, we tend not to consider the inherently social and moral character of technology. As a result, we are prone to overlook the effects of technology on our spiritual lives. This book investigates the role technology plays in helping and hampering our Christian practice and witness.

**Sustainable Energy--without the Hot Air** Apr 22 2020 Provides an overview of the sustainable energy crisis that is threatening the world's natural resources, explaining how energy consumption is estimated and how those numbers have been skewed by various

factors and discussing alternate forms of energy that can and should be used.

*Infinite Bandwidth* Sep 27 2020 Franciscan University of Steubenville Professor Eugene Gan authors this first-of-its-kind Catholic roadmap for the digital age: *Infinite Bandwidth: Encountering Christ in the Media*. He navigates you faithfully through the digital world, encouraging frustrated parents not to throw out cell phones, ban the Internet, chuck computers, or pitch portable media devices. That would be a mistake and believe it or not would be going against more than seven decades of Catholic teaching. From Church documents on social communications, Gan extracts seven principles or "media keys" of how to approach and use media. The Church and Gan say that we must enter into the modern day "Areopagus," the social and intellectual hub of ancient Athens where Paul preached to pagans, and use the media tools God has given us to make truth known and serve mankind. Cardinal John Patrick Foley says, "Frankly, I wish that such a book had existed when I was president of the Pontifical Council for Social Communications as a text which I could have recommended. The important thing, however, is that it exists now to provide a text, context, and challenge for those who wish to bring both Christian principles and professional excellence to their work in the media." Gan offers chapter after chapter of real-life experience of how to assess movies, games, and gadgets for you and your teens. Of how to judge the merits of a film like *Saving Private Ryan*, and what sets it apart from *Nightmare on Elm Street*. Can the one be acceptable viewing and the other not? Definitely.

And Gan details why. *Infinite Bandwidth: Encountering Christ in the Media* is way out front of the newest gizmo and will stay there thanks to its timeless principles that can be applied in all digital terrain, now and the future. Parents, educators, and students will put this book down with an entirely different attitude about the relationship between faith and media use.

**Teaching Naked** Jun 17 2022 You've heard about "flipping your classroom"—now find out how to do it! Introducing a new way to think about higher education, learning, and technology that prioritizes the benefits of the human dimension. José Bowen recognizes that technology is profoundly changing education and that if students are going to continue to pay enormous sums for campus classes, colleges will need to provide more than what can be found online and maximize "naked" face-to-face contact with faculty. Here, he illustrates how technology is most powerfully used outside the classroom, and, when used effectively, how it can ensure that students arrive to class more prepared for meaningful interaction with faculty. Bowen offers practical advice for faculty and administrators on how to engage students with new technology while restructuring classes into more active learning environments.

*Have Mercy on Us All* Mar 02 2021 In a small Parisian square, the ancient tradition of the town crier continues into modern times. The self-appointed crier, Joss Le Guern, reads out the daily news, snippets of gossip, and lately, ominous messages placed in his handmade

wooden message box by an anonymous source that warn of an imminent onset of the bubonic plague.

*Phantom Soldier* Dec 19 2019 "Phantom Soldier" is now on the U.S. Army's most prestigious pre-deployment reading list for a reason. It won't please those who have come to believe that wars are won and casualties limited through technology, or that the victor's version of one is always correct. But, all U.S. security personnel should read it. Possibly the West's best treatise on Oriental warfare, it sheds new light on what Asian infantry can do: (1) alternate between guerrilla, mobile, and positional warfare; (2) use "ordinary forces" to engage and "extraordinary forces [infiltrators]" to defeat; and then (3) retreat to save lives. What occurred in history doesn't change, but one's perception of it does--as he comes to better understand his former foe. Here's what really happened at Guadalcanal, Iwo Jima, Chosin Reservoir, and Hue City. Those who believe this book's cover art to be fantasy have only to google the term "dac cong." Through how the NVA held their own without resupply, tanks, artillery, or air power, U.S. grunts could better survive the more lethal enemy weaponry of the 21st Century.

*PC Mag* Jun 05 2021 PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology.

**Wedgie & Gizmo** Oct 21 2022 Fans of Stick Dog and My Big Fat Zombie Goldfish will love Suzanne Selfors’s hilarious new illustrated series about the growing pains of blended families and the secret rivalry of pets. “A delightfully fun read that will leave you in stitches!”—Caldecott Medalist Dan Santat When a bouncy, barky dog and an evil genius guinea pig move into the same house, the laughs are nonstop! Wedgie is so excited, he can’t stop barking. He LOVES having new siblings and friends to protect. He LOVES guinea pigs like Gizmo! He also LOVES treats! But Gizmo does not want to share his loyal human servant with a rump-sniffing beast! He does not want to live in a pink Barbie Playhouse. Or to be kissed and hugged by the girl human. Gizmo is an evil genius. He wants to take over the world and make all humans feel his wrath. But first he must destroy his archenemy, Wedgie, once and for all!
